DATO' PROF. DR. HJ. ABD. RAHMAN BIN HJ. ABD. RAHIM

Ketua Pengarah Perhutanan Semenanjung Malaysia
Director-General of Forestry Peninsular Malaysia

* Dianugerahkan Adjunt Professor daripada Universiti Malaysia Terengganu (UMT) pada Mac 2012
** Honoured Adjunt Professor from Universiti Malaysia Terengganu (UMT) on March 2012*

Tahun 2012 merupakan tahun ke-111 penubuhan Jabatan Perhutanan Semenanjung Malaysia (JPSM) yang berperanan penuh memikul tanggungjawab dalam mengurus dan membangunkan sumber hutan di Semenanjung Malaysia. Sehingga kini, JPSM berjaya memastikan kawasan berhutan di Semenanjung Malaysia seluas 5.79 juta hektar atau sebanyak 43.9% daripada keluasan tanah Semenanjung Malaysia. Daripada keluasan tersebut, seluas 4.89 juta hektar adalah kawasan Hutan Simpanan Kekal (HSK) yang diwartakan di bawah Akta Perhutanan Negara (APN) 1984 dan selebihnya untuk Hutan Tanah Kerajaan dan Hutan Tanah Milik. Bagi memastikan sumber hutan diurus dengan cekap, maka JPSM terus komited dalam menguruskan sumber hutan secara berkekalan, khasnya kawasan HSK sejajar dengan visi dan misi JPSM.

Ke arah ini, JPSM telah berjaya mengambil langkah-langkah yang perlu bagi menjamin sumber hutan negara terpelihara di antaranya melalui pelaksanaan pelbagai projek pembangunan dan aktiviti-aktiviti peringkat Persekutuan dan Negeri. Di bawah Kempen Menanam 26 Juta Pokok pula, sejumlah 4.90 juta pokok telah ditanam pada tahun ini. Semenjak tahun 2010, jumlah keseluruhan pokok yang telah ditanam di bawah kempen ini adalah sebanyak 15.36 juta pokok atau keluasan 14,991 hektar di Semenanjung Malaysia. Selain itu, kejayaan ini disokong oleh Program Penanaman Pokok Bakau dan Spesies-spesies Yang Sesuai Di Pesisiran Pantai Negara dengan tanaman sebanyak 954,407 pokok yang meliputi kawasan seluas 319.65 hektar.

Majlis Sambutan Hari Perhutanan Sedunia Ke-41 Peringkat Kebangsaan telah berlangsung dengan jayanya di Pusat Eko-Pelajaran Hutan Paya Laut Matang, Kuala Sepetang, Perak dengan bertemakan "Hutan Untuk Kesejahteraan Masyarakat". Usaha ini adalah salah satu kempen bagi meningkatkan kesedaran masyarakat untuk menghijaukan bumi di dalam usaha-usaha untuk mengurangkan kesan perubahan iklim dunia dan sayangi hutan.

Dalam usaha JPSM memelihara kepelbagaian biologi hutan dalam HSK, satu Ekspedisi Saintifik Kepelbagaian Biologi Hutan Gunung Tebu telah dianjurkan oleh JPSM di negeri Terengganu. Pada tahun ini juga, tiga (3) buah buku prosiding bagi ekspedisi di Hutan Taman Negeri Bukit Panchor dan Pulau Jerejak, Pulau Pinang, Hutan Gunung Berlumut, Johor dan Hutan Pulau Pangkor, Perak telah diterbitkan.

Dalam aspek jaminan kualiti pula, JPSM juga telah berjaya mengekalkan pensijilan Kriteria & Petunjuk bagi Pensijilan Pengurusan Hutan di Malaysia [MC&I (2002)] untuk lapan (8) Unit Pengurusan Hutan (FMU), mendapat penarafan lima (5) bintang di bawah penilaian Laman Web dan Portal Sektor Awam Malaysia oleh Malaysian

The year 2012 marks the 111th year of the establishment of the Forestry Department Peninsular Malaysia (FDPM) which undertakes full responsibility in managing and developing the forest resources of Peninsular Malaysia. To date, FDPM has successfully set aside 5.79 million hectares of land in Peninsular Malaysia covered with forest or 43.9% of the total land area in Peninsular Malaysia. Of this total, 4.89 million hectares are Permanent Reserved Forest (PRF), gazetted under the National Forestry Act (NFA) 1984, while the remaining as Stateland Forest and Alienated Land. To ensure that forest resources are managed efficiently, FDPM is fully committed to manage the forest resources sustainably, especially PRF areas in tandem with the Department's vision and mission.

In this endeavour, FDPM has successfully undertaken necessary important steps to ensure that the country's forest resources are preserved by carrying out various development projects as well as activities both at State and Federal levels. Under the 26 Million Trees Planting Campaign, a total of 4.90 million trees were planted this year. The total number of trees planted under this campaign in Peninsular Malaysia from 2010 has achieved 15.36 million trees or 14,991 hectares. This achievement is also complimented by the Programme for the Planting of Mangroves and other Suitable Tree Species Along the National Coastline with the planting of 954,407 trees covering an area of 319.65 hectares.

The 41st National Level World Forestry Day Celebration was successfully held at the Matang Mangrove Forest Eco-Education Centre, Kuala Sepetang, Perak with the theme "Forests for Community Livelihood". This effort is one of the campaigns to increase community awareness to greening the earth and thus helps to reduce the effects of world climate change and also caring our forests.

FDPM continuously strives to manage forest biological diversity in the Permanent Reserve Forests. In this context, a Scientific Expedition of Forest Biological Diversity of Gunung Tebu was organised in Terengganu. During the year, three (3) proceedings for expeditions to the Bukit Panchor State Park Forest and Jerejak Island, Penang, Gunung Berlumut Forest, Johor and Pangkor Island Forest, Perak have been successfully published.

In the aspects of quality assurance, FDPM has successfully mantained its criteria and indicators certification for Malaysian Forest Management Certification [MC&I (2002)] for eight (8) Forest Management Units (FMUs), achieved 5-star rating for the Department's website in the Malaysian Government Portals and Websites Assessment by the Malaysian Administrative Modernisation & Management Planning Unit (MAMPU) and awarded the 'Strategic Achievers' as well as maintaining the 5S Quality Environment Certification by Malaysian Productivity Centre (MPC).

Administrative Modernisation & Management Planning Unit (MAMPU) serta telah dianugerahkan 'Strategic Achievers' dan pengekalan Sijil Amalan Persekitaran Berkualiti 5S dari Malaysian Productivity Centre (MPC).

Sepanjang tahun 2012, JPSM telah terlibat secara aktif dan progresif di dalam pelbagai forum dan juga konvensyen peringkat antarabangsa yang menjurus kepada isu-isu semasa perhutanan global seperti pengurusan hutan secara berkekalan, alam sekitar, kepelbagaian biologi dan perdagangan kayu-kayan. Di antara forum dan mesyuarat utama di peringkat antarabangsa adalah APEC Experts Group On Illegal Logging and Associated Trade (EGILAT), United Nations Climate Change Conference, Senior Official Meeting On Malaysia-EU Forest Law Enforcement, Governance and Trade Voluntary Partnership Agreement (FLEGT VPA), 2nd Meeting of APEC Experts Group On Illegal Logging and Associated Trade (EGILAT), 48th Session of The International Tropical Timber Council and Associated Sessions of The Committees, The 15th ASEAN Senior Officials (ASOF) and Its Related Meetings, The 33rd Special SOM-AMAF and 11th SOM AMAF+3 dan The Special ASEAN-ROK Ministerial Meeting on Forestry. Malaysia dan khususnya JPSM, adalah terlibat secara langsung dalam melaksanakan komitmen-komitmen negara yang dipersetujui dalam forum berkenaan.

Saya ingin merakamkan setinggi-tinggi penghargaan kepada semua warga JPSM yang telah memberi komitmen bagi menjayakan pelbagai program dan aktiviti sepanjang tahun 2012. Di kesempatan ini juga, saya mengucapkan terima kasih kepada ahli Jawatankuasa Editorial Penyediaan Laporan Tahunan 2012 di atas penerbitan laporan tahunan ini. Saya berharap laporan tahunan ini dapat dimanafaatkan oleh warga JPSM dan juga pihak berkepentingan dalam dan luar sektor perhutanan serta para akademia dan pelajar.

Sekian, terima kasih.

Throughout 2012, FDPM has also been actively and progressively participated in various forums and conventions at international level especially those related to current issues on global forestry such as sustainable forest management, environment, biological diversity and timber trade. Some of the international forums participated were APEC Experts Group on Illegal Logging and Associated Trade (EGILAT), United Nations Climate Change Conference, Senior Official Meeting on Malaysia-EU Forest Law Enforcement, Governance and Trade Voluntary Partnership Agreement (FLEGT VPA), 2nd Meeting of APEC Experts Group On Illegal Logging and Associated Trade (EGILAT), 48th Session of The International Tropical Timber Council and Associated Sessions of The Committees, The 15th ASEAN Senior Officials (ASOF) and Its Related Meetings, The 33rd Special SOM-AMAF and 11th SOM AMAF+3 and The Special ASEAN-ROK Ministerial Meeting on Forestry. Peruntukan Perlembagaan, Dasar dan Undang-Undang

Constitutional Provisions, Policy and Legislations

I. PERUNTUKAN PERLEMBAGAAN

Perkara 74 (2) Perlembagaan Persekutuan dibaca bersama Senarai II dalam Jadual Kesembilan Perlembagaan itu memperuntukkan bahawa soal tanah termasuk hutan adalah di dalam bidang kuasa tiap-tiap Kerajaan Negeri di Semenanjung Malaysia, Sabah dan Sarawak. Di bawah peruntukan ini, Kerajaan Negeri mempunyai kuasa mutlak di dalam membentuk atau menerima sesuatu undang-undang dan peraturan hutan bagi mentadbir dan menguruskan hal-hal perhutanan di dalam negeri berkenaan. Pihak Berkuasa Persekutuan hanya memberi nasihat dan bantuan teknikal kepada negeri, penyelenggaraan stesen-stesen percubaan dan demonstrasi, latihan dan penyelidikan.

Majlis Tanah Negara (MTN) telah diberi kuasa di bawah Perlembagaan Malaysia untuk menggubal dasar kebangsaan bagi memajukan dan mengawal penggunaan tanah untuk perlombongan, pertanian dan perhutanan. MTN merupakan forum antara lain masalah dan isu berhubung dengan dasar perhutanan, pentadbiran dan pengurusan. Tanggungjawab untuk melaksanakan keputusan MTN adalah menjadi tugas Kerajaan-kerajaan Negeri kecuali jika ianya di bawah bidang kuasa Kerajaan Persekutuan.

II. DASAR DAN PERUNDANGAN

Pada tahun 1977, Dasar Perhutanan Negara (DPN) telah diluluskan oleh MPN dan kemudian disahkan oleh MTN pada 19 April 1978. Dasar tersebut telah dikaji semula pada 10 November 1992 atas kesedaran yang ditunjukkan oleh masyarakat dunia terhadap kepentingan pemeliharaan kepelbagaian biologi dan penggunaan sumber genetik secara berkekalan serta peranan masyarakat dalam pembangunan perhutanan. Penerimaan dasar tersebut merupakan suatu kejayaan memperkukuhkan asas perlembagaan dan mengeratkan kerjasama dan persefahaman di antara Kerajaan Persekutuan dan Kerajaan Negeri dalam pembangunan sektor perhutanan.

I. CONSTITUTIONAL PROVISIONS

Article 74 (2) of Federal Constitution related with List II in the Ninth Constitution Table had provisioned that the subject of land including forest is placed under the jurisdiction of each State Government in Peninsular Malaysia, Sabah and Sarawak. Under the provision, the State Government has full authority to form or acknowledge any laws and forest regulation related to the administration and management of forest matters in that particular state. The Federal Authorise Body only provides advice and technical assistance to the states, maintenance of trail stations and demonstrations, training and research.

The National Land Council (NLC) has been given the right under the Malaysian Constitution to amend the national policy for the purpose of developing and monitoring the usage of land for mining, agriculture and forestry activities. NLC also serves as a forum to solve problems and issues regarding forestry policies, administration and management. The responsibility to implement NLC's decisions is tasked upon the state governments unless it befalls under the jurisdiction of the Federal Government.

II. POLICY AND LEGISLATIONS

In 1977, the National Forestry Policy (NFP) was approved by the NFC and later endorsed by the NLC on 19 April 1978. This Policy was revised on 10 November 1992 to take cognizance of the concern expressed by the world community on the importance of biological diversity conservation and the sustainable utilization of genetic resources, as well as the role of local communities in forest development. The acceptance of the Policy is a major breakthrough in strengthening the institutional base and enhances the cooperation and understanding between the Federal and State Governments in the field of forestry sector development.

Antara Dasar yang berkaitan adalah:

- Dasar Pertanian Negara Ke-3 (1998 – 2010);
- Pelan Induk Perindustrian Ke-2 (1996 – 2005);

Imbasan Sepanjang Tahun 2012

Year Under Review 2012

SUMBER HUTAN

Pada akhir tahun 2012, kawasan berhutan di Semenanjung Malaysia adalah merangkumi 5.79 juta hektar atau 43.9% daripada jumlah keluasan tanah seluas 13.18 juta hektar.

Daripada jumlah ini, seluas 4.89 juta hektar atau 84.5% telah diwartakan sebagai Hutan Simpanan Kekal (HSK) di bawah Akta Perhutanan Negara, 1984. Kawasan HSK ini diuruskan di bawah prinsip pengurusan hutan secara berkekalan untuk kepentingan ekonomi, sosial dan alam sekitar.

FOREST RESOURCES

At the end of 2012, forested land accounted for 5.79 million hectares or 43.9% of Peninsular Malaysia's total land area of 13.18 million hectares.

Out of this total, 4.89 million hectares or 84.5% have been gazetted as Permanent Reserved Forests (PRFs) under the National Forestry Act, 1984. These PRFs are managed under the sustainable forest management principles for economic, social and environmental benefits.

PENGURUSAN SUMBER HUTAN

Selama 111 tahun, sumber hutan asli di dalam Hutan Simpanan Kekal (HSK) yang terdiri daripada Hutan Darat, Hutan Paya Gambut dan Hutan Paya Laut telah diuruskan secara sistematik semenjak 1901.

Kriteria dan Petunjuk untuk Pensijilan Pengurusan Hutan di Malaysia merupakan standard yang digunakan untuk menilai aktiviti pengurusan dan pembangunan hutan di peringkat Unit Pengurusan Hutan (FMU) untuk tujuan pensijilan. Pensijilan pengurusan hutan mengikut standard MC&I telah mula dilaksanakan pada 1994 berdasarkan *ITTO Criteria and Indicators For Sustainable Forest Management*. Setelah kajian semula dibuat, dokumen bertajuk *Malaysian, Criteria, Indicators, Actitivies and Standards of Performance (MC&I) for Forest Management Certification (Forest Management Unit Level), Peninsular Malaysia* atau lebih dikenali sebagai [MC&I (2001)] telah dihasilkan.

Kesemua lapan (8) FMU yang terlibat dengan pensijilan pengurusan hutan telah menjalani Audit Pensijilan Semula MC&I dan Audit Pemantauan MC&I seperti yang dirancangkan. Kesemua negeri FMU iaitu Johor, Kedah, Kelantan, Negeri Sembilan, Pahang, Perak, Selangor dan Terengganu telah berjaya dikekalkan dengan Sijil Pengurusan Hutan oleh Badan Pensijilan Bebas iaitu SIRIM QAS International Sdn Bhd dan SGS (Malaysia) Sdn Bhd.

FOREST RESOURCE MANAGEMENT

For the last 111 years, natural forest resources especially those found within the Permanent Forest Reserve (PFR) areas which include Inland Forest, Peat Swamp Forest and Mangrove Forest have been managed systematically since the year 1901.

The Criteria and Indicators for the Malaysia Forest Management Certification is a standard to be adopted to assess management activities and forest development at the Forestry Management Unit (FMU) level for certification purposes. Forest Management Certification in accordance to the MC&I standard has been implemented from 1994 based on ITTO's Criteria and Indicators for Sustainable Forest Management. Upon being revised, a document entitled Malaysian, Criteria, Indicators, Activities and Standards of Performance (MC&I) for Forest Management Certification (Forest Management Unit Level), Peninsular Malaysia or also known as [MC&I (2001)] was produced.

All eight (8) FMUs involved with the forest management certification has undergone MC&I Re-certification Audit and MC&I Monitoring Audit as planned. All FMU states which consist of Johor, Kedah, Kelantan, Negeri Sembilan, Pahang, Perak, Selangor and Terengganu have successfully retained the Forest Management Certification when audited by an Independent Certification Body or SIRIM QAS International Sdn Bhd and SGS (Malaysia) Sdn Bhd.

Sungguhpun Pensijilan Pengurusan Hutan yang dilaksanakan kini lebih menjurus untuk memenuhi tuntutan dan kehendak pasaran pengguna antarabangsa *(International Consumer Demand)* dan penyertaan JPSM dalam pensijilan pengurusan hutan adalah secara sukarela, namun penyertaan JPSM dan semua Jabatan Perhutanan Negeri dalam konteks ini adalah bertujuan untuk menzahirkan komitmen murni terhadap kepentingan pengekalan peranan dan sumbangan sumber hutan negara, terutamanya kawasan-kawasan HSK di bawah amalan Pengurusan Hutan Secara Berkekalan untuk dimanfaatkan oleh generasi masa kini dan masa hadapan.

Even though currently implemented Forest Management Certification is more inclined to fulfilling the claim and demand of the international consumer market (International Consumer Demand) and the involvement of FDPM and all State Forestry Departments in this context is to highlight the importance of maintaining the role and contribution of resources of our national forest especially in the PFR areas under the implementation of Sustainable Forest Management Practice so it benefits the current as well as the future generations.

Program Kerjasama Perhutanan ASEAN - Republik Korea

ASEAN and Republic of Korea Forest Cooperation Programme

Pada tahun 2012, Jabatan Perhutanan Semananjung Malaysia (JPSM) telah menerima dana kewangan sebanyak RM150,000 (USD50,000) dari Republik Korea melalui Korea Forest Service (KFS) Forestry Cooperation Program untuk melaksanakan program pembangunan sumber manusia bertajuk "Pembangunan Kapasiti Sumber Manusia Untuk Meningkatkan Pengurusan Mampan Di JPSM". Jangkamasa program ini adalah 12 bulan dan objektif projek ini adalah seperti berikut:

- Untuk mengukuhkan pembangunan sumber manusia di JPSM yang meliputi kakitangan pelbagai peringkat dan tahap kompetensi dalam bidang berkaitan dengan amalan pengurusan hutan secara mampan; dan
- Untuk melatih dan menggalakkan pengusaha hutan awam dan swasta untuk menjalankan operasi perhutanan mengikut amalan yang betul.

In 2012, Forestry Department Peninsular Malaysia (FDPM) has received a contribution amounting to RM150,000 (USD50,000) from the Republic of Korea through the Korea Forest Service (KFS) Forestry Cooperation Programme to implement a human capital development programme called "Development of Human Resource Capacity to Increase Competency Management in FDPM". The duration of the project is 12 months and the objectives are as follows:

- *To strengthen human resource development for all FDPM's personnel regardless of level and competency related to the implementation of sustainable forest management; and*
- *To train and encourage public and private forest operators to undertake sound forestry operations.*

Antara aktiviti yang telah dirancang dan dilaksanakan di bawah program ini adalah:

- Menggubal Dasar Latihan Sumber Manusia JPSM;
- Menggubal modul dan kurikulum kursus/latihan yang meliputi kakitangan semua pangkat dan tahap kecekapan, termasuk operator hutan (awam dan swasta);
- Menggubal dan mewujudkan Struktur Latihan Bermatrik untuk semua kakitangan perhutanan merangkumi kakitangan semua peringkat dan tahap kecekapan; dan
- Lawatan Teknikal dalam bidang perhutanan ke Republik Korea.

Among the activities planned and implemented under this project are:

- *Establishing FDPM Human Resource Training Policy;*
- *Forming course/training module and curriculum involving all personnel irrespective of position and level of proficiency including forest operators (public and private);*
- *Forming and establishing a Matrix Training Structure for all forestry personnel at all positions and levels proficiency; and*
- *Technical Visit related to the forestry sector to the Republic of Korea.*

Sebagai sebuah agensi yang bertanggungjawab mentadbir, memelihara, membangun dan mengurus sumber hutan di negara ini secara mampan, maka JPSM perlu sentiasa bergerak seiring dengan kehendak dan permintaan umum yang sentiasa berubah terutama dari hasil keluaran hutan dan juga sumbangan sosial. Menyedari hakikat ini, maka di bawah program kerjasama ini salah satu aspek yang telah diberi perhatian adalah untuk memrumuskan Polisi Latihan Sumber Manusia (Human Resource Training Policy) selaras dengan kenyataan dalam Dasar Perhutanan Negara 1978 (Pindaan 1992) yang antara lainnya menyatakan "Program latihan secara komprehensif perlu dilaksanakan di semua peringkat untuk sektor awam dan swasta bagi memastikan jumlah tenaga kerja yang mencukupi bagi memenuhi keperluan sektor perhutanan dan juga industri berasaskan kayu".

As an agency responsible to administer, conserve, develop and manage the forest resources of the country sustainably, FDPM has to work in accordance with the changing public needs and demands especially those forest based products and social contributions. Realising this fact, thus in this cooperation programme, one of the aspect highlighted is to formulate the Human Resource Training Policy in line with the National Forestry Policy (1992 Amendment) stating, "A comprehensive training programme must be implemented for the public and private sectors at all levels to ensure sufficient work force so as to fulfill the requirement of the forestry sector and timber based industries."

Sesi taklimat mengenai pengurusan Hutan Sogwang-ri
Briefing on the management of Sogwang-ri Forest

Selain itu, satu lawatan teknikal telah diadakan ke Korea Selatan pada 7-13 April 2012. Tujuan lawatan ini adalah bagi mempelajari dan melihat sendiri sektor perhutanan di Korea yang menjadi tarikan pelancongan dan rekreasi. Sungguhpun demikian, sumber kayu masih diperolehi daripada pembangunan hutan ladang yang diuruskan secara moden dengan teknologi terkini terutama dari segi pemilihan baka, pembaikbiakan dan penyimpanan anak benih Korean Pine (Pinus koraiensis) yang dipilih untuk ditanam. Selain itu, sektor perhutanan di Korea memberi penekanan yang serius terhadap ancaman bencana kebakaran hutan. Ini kerana dirian hutannya terdiri daripada beberapa spesies sahaja dan apabila kebakaran berlaku maka api mudah merebak terutama pada musim panas.

Semua aktiviti telah disiapkan dalam tempoh yang ditetapkan mengikut perlaksanaan perjanjian. Di samping laporan akhir projek, empat dokumen telah berjaya diterbitkan. Dokumen-dokumen tersebut adalah seperti berikut:-

- Laporan Lawatan Teknikal ke Republik Korea;
- Perumusan Dasar Pembangunan Sumber Manusia;
- Penggubalan Kurikulum Latihan / Kursus; dan
- Struktur Latihan Bermatrik untuk kakitangan Perhutanan semua peringkat dan jawatan

Semua dokumen ini diterbitkan dalam dua (2) bahasa iaitu Bahasa Melayu dan Bahasa Inggeris, kecuali Laporan Lawatan Teknikal.

Besides this, a technical visit to North Korea on the 7 -13 April 2012 was also conducted. The purpose of the visit is to learn and observe how the Koreans developed the forestry sector as a tourist attraction and for recreation. Although, timber supplies are still harvested from the development of forest plantation managed using the modern and state-of-the-art technological methods right from the selection of seedling, germination and storage of the Korean Pine (Pinus koraiensis) seedlings chosen for planting. Beside this, the forestry sector in Korea also emphasises on the hazards of forest fire. This is because the Korean forest only consists of several species and in the event of forest fire, the fire will spread very rapidly especially during summer.

All these activities were completed within the stipulated time frame and in accordance with the agreement. Besides the final report, four (4) documents have successfully been published. These documents were;

- *Technical Visit to Republic of Korea Report;*
- *Human Resource Development Policy Summary;*
- *Formulation of the Training Course Curriculum; and*
- *Matrix Training Structure for forestry personnel at all levels and positions.*

All documents were published in two (2) languages, Bahasa Melayu and English except for the Technical Visit Report.

Director-general of Forestry ***Datuk Dr Abdul Rahman Abdul Rahim*** *welcomes volunteers*

Rahman said it was a good way to handle issues of illegal logging and encroachment into forest reserves.

"Right now, the role of voluntary observer is being fulfilled by certain NGOs and even individuals. Recently, Transparency International-Malaysia (TI-Malaysia) created a group called Voluntary Forest Monitors (TIM-VFM).

"This group consists of the staff and volunteers of NGOs, communities and individuals interested in forestry issues as well as people with a background in forestry," he said.

However, Meor Razak said if the proposed voluntary corps is to be well received by the public, the implementers must identify legal issues which need to be overcome.

Citing an example, he said forest reserves are restricted areas under current laws (Akta Perhutanan Negara 1984), therefore, civilians are not allowed to enter the areas unless they obtain a permit.

Recording Our Heritage

Located, almost literally, in downtown Kuala Lumpur is the Bukit Nanas Forest Reserve. Spanning nearly 11 hectares, it is an area of natural jungle which has been gazetted as one of the country's permanent forest reserves from as early as 1906. What makes the Bukit Nanas forest even more remarkable is its proximity to the heart of the city. In fact, this living symbol of Kuala Lumpur's past is within a short walking distance to one which represents the modern city – the KL Tower.

While much has been talked and written about the economic and industrial development of Malaysia, places such as the Bukit Nanas Forest Reserve go to show the importance of the country's natural heritage. These are of course the economic benefits as well, in terms of tourism in particular. After all, many cities in the world can claim to have the same urban amenities as Kuala Lumpur, but not many can boast to have a natural forest complete with hiking trail, not too far away from the

Menteri Sumber Asli dan Alam Sekitar, Datuk Seri Douglas Uggah Embas, berkata mengumumkan supaya Unit Perancang Ekonomi (EPU) di Jabatan Perdana Menteri mengalurkan peruntukan RM2 juta bagi pembiayaan program itu oleh Jabatan Alam Sekitar (JAS).

Penguatkuasaan berseputu

"Program pengawasan ini membabitkan penguatkuasaan secara bersepadu pelbagai agensi di bawah Kementerian Sumber Asli dan Alam Sekitar atau 1 NRE Enforcement," kanunya dalam kenyataan semalam.

Ia akan memantapkan aspek penguatkuasaan sebelum, semasa dan selepas sesuatu projek atau aktiviti di kawasan hutan.

Jabatan Hutan saja ada kursus panjat pokok

SAYA memiliki sekian untuk yang menggabungkan kemahiran dan pengalaman. Untuk pengetahuan, sebelum ini saya pernah terbabit dengan aktiviti memanjat pokok.

Walaupun sekian lama tidak berbuat demikian, saya berasa seperti tidak pernah meninggalkan aktiviti itu.

Sebelum ini, saya hanya terlibat dengan sukan memanjat pokok saja.

Saya dikenalkan aktiviti memanjat pokok sewaktu kursus Jabatan Hutan di Kampung Sungai Pelong, Bukit Rotan, Kuala Selangor.

Kursus yang berlangsung selama tiga hari itu dianjurkan oleh Jabatan Hutan Negeri Selangor dan disertai oleh 30 peserta.

Kursus itu diadakan bagi memberi pendedahan kepada peserta mengenai kaedah memanjat pokok dengan selamat.

Ia juga bertujuan untuk mengetahui cara menyelamatkan diri jika berlaku kecemasan ketika memanjat pokok.

Kursus itu dikendalikan oleh pegawai Jabatan Hutan Negeri Selangor.

Pada hari pertama, kami diberi taklimat mengenai kursus itu dan diperkenalkan dengan peralatan yang digunakan untuk memanjat pokok.

Peralatan yang digunakan termasuk tali, tali pinggang keselamatan, topi keselamatan dan kasut khas.

Pada hari kedua, kami diberi latihan memanjat pokok di kawasan hutan di Kampung Sungai Pelong.

Pada hari ketiga, kami diberi latihan menyelamat dan kaedah menyelamatkan diri jika berlaku kecemasan.

Saya berasa seronok dapat mengikuti kursus itu kerana ia memberi pengalaman yang berguna kepada saya.

Saya juga berasa lebih yakin untuk memanjat pokok dengan selamat.

Saya berharap kursus seperti ini akan diadakan lagi pada masa akan datang.

Guna DNA pokok dakwa pembalak

Malaysia negara pertama manfaat sains forensik atasi penceroboh hutan

Oleh Faiza Zainudin dan Nazura Ngah
bhnews@bharian.com.my

KUALA LUMPUR: Malaysia bakal mencatat sejarah apabila muncul sebagai negara pertama di dunia yang menggunakan sains forensik sebagai bahan bukti kukuh untuk mendakwa pembalak haram.

Ketua Pengarah Jabatan Perhutanan Semenanjung Malaysia, Datuk Dr Abd Rahman Abd Rahim, berkata teknologi menggunakan sampel pokok dan analisis ujian asid deoksiribonukleik (DNA) itu dibangunkan bersama dengan Institut Penyelidikan Perhutanan Malaysia (FRIM) dan penyelidik luar negara serta dijangka dilaksanakan sepenuhnya menjelang 2016.

"Belian berkata, buat masa ini pihaknya hanya bergantung kepada teknologi *remote sensing*, sistem pemanan global (GPS), rondaan di ra dan darat serta maklumat orang ramai bagi mengesan aktiviti pencerobohan hutan simpan, hutan milik kerajaan negeri dan individu membabitkan kawasan seluas 5.8 juta hektar di Semenanjung.

"Menerusi teknologi ini yang dijangka membabitkan kos berbilion ringgit, kerajaan dapat mengesan dan mengawal sumber hutan bernilai tinggi dari diceroboh dan dicuri sindikat pembalak haram.

"Kami yakin penadaman profil DNA balak dan tunggul yang dipercayai sumber balak yang dicuri itu dapat membantu menyelesaikan isu pembalakan haram kerana setiap pokok dalam semua spesies mempunyai profil DNA unik yang tidak menyerupai mana-mana profil pokok lain termasuk spesies itu sendiri.

"Sains forensik DNA pokok memperkukuhkan kes pendakwaan terhadap pencuri balak yang sebelum ini boleh terlepas kerana tiada bukti kukuh," katanya kepada *Berita Harian* di sini, semalam.

"Beginning next month, the public, especially researchers and tourists will be able to stay at the centre," he said.

Also present was state executive councillor for Tourism, Unity, Culture and Arts Datuk Mohammad Razi Kail.

Fadzil said among the crowd-pullers at the centre include a Jelutong tree which is more than 100 years old.

It measures about 190.2cm in girth, making it the biggest in the state.

Apart from that, he said the department was in the process of applying for a RM11 million allocation from the Tourism Ministry to build a hanging bridge which will allow visitors to get a bird's eye view of the forest reserve.

"Three 50-metre towers will be built where the 500-metre long bridge will be suspended about 30 metres above ground," he said.

Negri Sembilan Menteri Besar Datuk Seri Mohamad Hasan, who visited the centre recently, said he was happy with the facilities there and was confident it would be a successful tourism product.

"There are many treasures in this forest reserve which are priceless.

"I hope more people will visit and appreciate the [illegible]," said Fadzil.

KLANG: About 4,500 mangrove logs, a 10-tonne lorry and a boat were seized during a raid on a storage shed in Kampung Pendamar, Pandamaran here.

The raid was carried out by the Malaysian Maritime Enforcement Agency (MMEA) and Malaysian Anti-Corruption Commission (MACC) yesterday.

Four workers escaped by jumping into sea after MMEA officers seized the boat.

An MMEA officer, who did not want to be named, said the site had been under surveillance for the past two weeks.

"The act of stealing mangrove logs is rampant in the islands near Port Klang. There are many operators involved in felling the mangrove logs illegally.

"We are going on a major operation to catch the main operators and not just the workers," he said.

Each mangrove log sells for RM17 and is mainly used in the construction industry.

A state forestry department officer who was present at the site was also questioned by the raiding team.

Bundle of evidence: A Selangor Forestry Department officer sealing the seized mangrove logs.

An MACC officer, who requested anonymity, said it would send a letter to the department seeking an explanation on why mangrove logs were still being sold in the area despite a statewide ban since 2010.

"This operator was caught in 2010 and is still operating.

"We also want an explanation on why the state forestry officer was in the area," he said.

Selangor Forestry director Yusoff Musta said his officers had seized the logs and placed yellow tape over them and the vehicle.

Kawasan hutan di Malaysia 18.48 juta hektar

KUALA LUMPUR 9 Mei - Malaysia masih berjaya mengekalkan kawasan berhutan seluas 18.48 juta hektar atau 56.4 peratus daripada keluasan tanah negara.

Timbalan Menteri Sumber Asli dan Alam Sekitar, Tan Sri Joseph Kurup berkata, ia adalah selaras dengan komitmen negara pada Sidang Kemuncak Rio 1992 untuk mengekalkan sekurang-kurangnya 50 peratus daripada keluasan tanah negara.

Menurutnya, terdapat seluas 4.92 juta hektar kawasan hutan telah pun diwartakan sebagai Hutan Simpan Kekal di Semenanjung Malaysia.

"Daripada jumlah tersebut, sebanyak 38,297 hektar telah dikhaskan bagi tujuan penyelidikan di bawah hutan penyelidikan," katanya di Dewan Negara hari ini.

Beliau menjawab soalan asal Senator Muhammad Olian Abdullah yang mahu mengetahui keluasan hutan simpan seluruh negara dan berapa keluasan hutan digunakan untuk penyelidikan serta promosi ekopelancongan.

Joseph Kurup berkata, bagi tujuan ekopelancongan pula, enam kawasan hutan taman negeri dengan keluasan 151,494 hektar dan 124 kawasan hutan lipur seluas 17,306 hektar yang terletak dalam hutan simpanan kekal telah dikelaskan di bawah seksyen 10(1) Akta Perhutanan Negara 1984.

Urus sumber hutan secara mapan

KUALA LUMPUR 3 Okt. - Kerajaan negeri bertanggungjawab dalam memastikan sumber hutan diurus secara mapan melalui pelaksanaan amalan pengurusan hutan secara berkesan.

Timbalan Menteri Sumber Asli dan Alam Sekitar, Tan Sri Joseph Kurup (gambar) berkata, bagi memastikan amalan tersebut dilaksanakan secara berkesan, pihaknya sentiasa memantau semua negeri agar mematuhi Catuan Tebangan Tahunan bagi kawasan hutan pengeluaran dalam Hutan Simpanan seperti ditetapkan oleh Majlis Tanah Negara.

"Pematuhan catuan tersebut oleh semua negeri juga dipantau setiap Jabatan Perhutanan di negeri masing-masing melalui laporan pengeluaran lesen membalak dan keluasan hutan yang dilesenkan.

"Ini seperti yang diperuntukkan dalam Perkara 74 (2) Perlembagaan Malaysia, perhutanan adalah di bawah bidang kuasa kerajaan negeri, maka pihak berkuasa negeri mempunyai kuasa meluluskan sesuatu lesen pengusahasilan (atau pembalakan) di negeri masing-masing," katanya pada sidang Dewan Rakyat hari ini.

Beliau menjawab soalan asal **Datuk Rashid Din (PKR-Merbok)** yang meminta dinyatakan sama ada kementerian itu memantau kerajaan negeri dalam pembukaan kawasan membalak dan apakah jenis pampasan yang diberikan kepada kerajaan negeri jika kerajaan negeri diarah untuk tidak membuka sesuatu kawasan dengan sebab ia satu kawasan tadahan air negara.

Menjawab soalan sama, beliau menegaskan, pelaksanaan usaha-usaha pemeliharaan dan pemuliharaan hutan semenangnya memberi manfaat kepada gene-

Pemuliharaan hutan, alam semula jadi subjek di sekolah

KUALA LUMPUR 10 Dis. - Subjek pemuliharaan hutan dan alam semula jadi untuk pembelajaran pelajar sekolah rendah dan sekolah menengah terus diutamakan oleh Kementerian Pelajaran dalam pendidikan merentasi kokurikulum dan kokurikulum.

Timbalan Menteri Pelajaran, Dr. Mohd. Puad Zarkashi berkata, pengetahuan dan kesedaran pelajar terhadap alam sekitar dan pemuliharaan alam semula jadi telah diajar dalam mata pelajaran Geografi dan Sains sejak 1992.

Selain itu, kata beliau, kementerian juga menyelitkan elemen alam sekitar dan ekosistem ke dalam mata pelajaran Bahasa Melayu, Bahasa Inggeris, Pendidikan Islam dan Pendidikan Moral menerusi pendidikan merentasi kokurikulum.

"Kita memasukkan unsur seperti tuhan pencipta alam dan semesta, bumi dan alam semesta, benda bukan hidup, sumber semulajadi dan tenaga, benda hidup dan alam sekitar, interaksi antara manusia dan haiwan dan pengurusan alam sekitar.

"Bagi kaedah kokurikulum pula, pelajar dilibatkan dengan aktiviti pemuliharaan tumbuh-tumbuhan semulajadi dan hidupan liar di luar bilik darjah. Kita jalankan aktiviti seperti ini dari masa ke semasa," katanya dalam sidang Dewan Negara hari ini.

Beliau menjawab soalan Dayang Madinah Abang Openg yang ingin tahu pendekatan yang diambil oleh kementerian tersebut dalam mengutamakan pendidikan alam sekitar dan alam semulajadi.

Mohd. Puad berkata, dalam usaha kementerian memperkukuhkan pembelajaran bagi subjek berkenaan, kerjasama dengan agensi kerajaan seperti Jabatan Perhutanan dan Kehidupan Liar Perhilitan sentiasa dilakukan.
